Allegheny County
ECMS No. 57100
Hulton Bridge - Demolition Zone Notification

Dear Sir or Madam,

This notification is being distributed to residents and property owners that are located within the "safety radius" for the demolition of the existing Hulton Bridge. The demolition of the referenced structure is tentatively scheduled for a weekday morning during the last week in January, or the first week in February. The dates of this timeframe are 1/25/2016 to 2/5/2016. Being inside the referenced safety radius requires precautionary measures to ensure your safety. These measures include seeking indoor shelter away from all windows during blasting activities. It is **strongly** encouraged that all residents within this safety radius relocate to an area outside of the safety zone for the duration of the blasting activity (approximately 3-4 hours time). See attached for limits of the safety zone. If you require assistance with relocating during this timeframe please contact one of the Brayman representatives listed below prior to Wednesday January 13th 2016 to allow for necessary arrangements. A more specific time frame for the blast is not available at this time, but will be provided two (2) days prior to the demolition of the structure.

If you have any questions or concerns please contact one of the following Brayman representatives:

Kevin Meade Phone: 724-443-1533 x 50418

Karlene Durso Phone: 724-443-1533 x 50377

We appreciate your patience while we work to improve the local infrastructure.

Sincerely,

Jason C. Booher
Project Manager
