2017 Property Tax Cut

Very good news! Residential property taxes have been reduced with the new Homestead Exemption. The current assessed value of your home has been reduced by \$10,000.00. This would be the second year we have lowered your Harmar Township Taxes.

This year's paving program addresses the most neglected streets in the Township. There has not been an aggressive paving project since 2004. Township will spend \$365,548.73 on the current paving program. A systematic 10 year road project list is under review for future road repairs and paving.

Update: The Harmarville Hurricanes Soccer Complex parking lot (behind the Municipal Building) has been completed. The new parking area has increased from 50 to 100 spaces. The concession building improvements should be complete this spring. The new practice field will be finished this spring.
